

## TABLE OF CONTENTS

<b>PREFACE</b> .....	vi
 <b><u>CRUDE OIL AND HYDROCARBON FLUID FOULING</u></b>	
<b>Twenty Years of Ebert and Panchal – What Next?</b> .....	1
D.I. Wilson, E.M. Ishiyama and G.T. Polley	
<b>A Critical Look at the Use of Activation Energy in Crude Oil Fouling Models</b> .....	13
A.D. Smith and H.M. Joshi	
<b>Impact of Mixing on Crude Oil Fouling Tests</b> .....	22
M.R. Lane and J.S. Harris	
<b>Heat Exchanger Design with High Shear Stress: Reducing Fouling or Throughput?</b> .....	27
F. Coletti, E. Diaz-Bejarano, J. Martinez and S. Macchietto	
<b>Crude Oil Fouling Deposition, Suppression, Removal - and how to Tell the Difference</b> .....	34
E. Diaz-Bejarano, F. Coletti and S. Macchietto	
<b>Fouling Management of Thermal Cracking Units</b> .....	42
E.M. Ishiyama, J. Kennedy and S.J. Pugh	
<b>Investigating the Impact of Boiling Conditions on the Fouling of a Crude oil</b> .....	50
J.S. Harris, M.R. Lane and A.D. Smith	
<b>Thermal Fouling of Heat Exchanger Tubes due to Heavy Hydrocarbon Droplets Impingement</b> .....	57
P. Verhees, A. Mahulkar, K. Van Geem and G.J. Heynderickx	
<b>Deposition from a Sour Heavy Oil under Incipient Coking Conditions: Wall Shear Stress Effects and Mechanism</b> .....	65
W. Wang and A.P. Watkinson	
<b>Fouling in the Crude Oil Distillation Pre-Heat Train: Comparison of Experimental Data with Model Results</b> .....	74
A. Chambon, M. Ratel, Z. Anxionnaz-Minvielle, B. Aquino, A. Buffet and B. Vinet	
<b>Modelling Shell-Side Crude Oil Fouling in Shell-and-Tube Heat Exchangers</b> .....	81
E. Diaz-Bejarano and F. Coletti	
<b>Beyond Fouling Factors: A Reaction Engineering Approach to Crude Oil Fouling Modelling</b> .....	89
E. Diaz-Bejarano, F. Coletti and S. Macchietto	
<b>Analysis of Highly Noisy Crude Oil Fouling Data using Kalman Filter</b> .....	97
A.R. Mirsadraee and M.R. Malayeri	
<b>EMbaffle® in Refinery Service. on-Field Study and Data Validation through SmartPM®</b> .....	104
M. Brignone, F. Perrone, M. Rottoli, S.J. Pugh and E.M. Ishiyama	

**FOULING IN POWER PLANTS**

<b>The Interaction of a Film-Forming Amine with Surfaces of a Recirculating Experimental Water Loop</b> .....	112
M. Jack, S. Weerakul and D.H. Lister	
<b>The Role of Thermophoresis during Deposit Built-up on a Superheater Tube</b> .....	119
U.S. Kleinhans, M. Barnerboi, S. Babat, C. Wieland and H. Spliethoff	
<b>A Methodology to Simulate the Impact of Tube Fouling on Steam Generator Performance with a Thermal-Hydraulic Code</b> .....	128
T. Prusek, F. Oukacine and C. Hervouet	
<b>Analysis of the Impact of Ash and Scale Fouling on the Superheater Operation</b> .....	136
M. Trojan, D. Taler and J. Taler	
<b>Study on Physicochemical Mechanism of Nickel Surface Oxidation Behavior under high Temperature Condition by using Molecular Dynamic Method</b> .....	147
X. Lu, T. Ma, M. Zeng, Y. Chen and Q.W. Wang	

**FOULING IN AUTOMOTIVE INDUSTRY**

<b>Review and a Conceptual Model of Exhaust Gas Recirculation (EGR) Cooler Fouling Deposition and Removal Mechanism</b> .....	154
T. Han, A.C. Booth, S. Song, D.J. Styles and J.W. Hoard	
<b>A Review of Particulate Fouling and Challenges of Metal Foam Heat Exchangers</b> .....	166
S.A. Fadhilah, M.R. Malayeri, and K. Hooman	

**INDUSTRIAL FOULING PROBLEMS**

<b>Evaporator Fouling Tendencies of Thin Stillage and Concentrates from the Dry Grind Process</b> .....	175
R.K. Challa, Y.B. Zhang, D.B. Johnston, V. Singh, N.J. Engeseth, M.E. Tumbleson and K.D. Rausch	
<b>Update on Field Tests on Heat Exchangers Equipped with Dual Enhanced Tubes in a Quench Water Application</b> .....	183
J. Sippel, J. El-Hajal, and T. Scott	
<b>Impact of Non-Uniform Fouling on Operating Temperatures in Heat Exchanger Networks</b> .....	191
L. Jackowski, P.J. Risse, and R.O. Smith	
<b>A Wall-Function Approach for Direct Precipitation/Crystallization Fouling in CFD Modelling</b> .....	198
S.G. Johnsen, S.T. Johansen and B. Wittgens	

**CRYSTALLIZATION FOULING**

<b>Impact of Tube Surface Properties on Crystallization Fouling in Falling Film Evaporators for Seawater Desalination</b> .....	207
H. Glade, A. Stärk, K. Krömer, K. Loisel, K. Odier and S. Nied	
<b>Numerical Simulation of Crystallization Fouling Taking into Account Fouling Layer Structures</b> .....	218
J. Xiao, J. Han, F. Zhang, and X.D. Chen	

<b>Effects of Operating and Geometric Parameters on CaSO<sub>4</sub> Crystallization Fouling in Plate Heat Exchangers</b> .....	226
K.S. Song, S.W. Kim, H. Kang, C.H. Baek and Y.C. Kim	

## **BIOFOULING**

<b>Biofilm Formation on Polymeric Heat Transfer Surfaces</b> .....	231
S. Pohl, M. Madzgalla, W. Manz and H.-J. Bart	
<b>Antimicrobial Surfaces to Combat Microbial and Organic Fouling in the Food Industry</b> .....	236
K.A. Whitehead, S. Olivier, S. Hughes, P. Benson, D. Sawtell, G. West, L. Tetlow, K. Amamchukwu and P. Kelly	
<b>The Importance of Material Properties, Nutrient Load and Shear Stress on Biofilm Formation</b> .....	243
J.M.R. Moreira, L.C. Gomes, M. Simões, L.F. Melo and F.J. Mergulhão	
<b>In-situ Shipboard Heat Exchanger Maintenance using Innovative I2 Bubble Infusion Technology</b> .....	248
M. Radicone	
<b>Neutral Electrolysed Oxidizing Water as Anti-Biofouling Alternative to Traditional Chlorine</b> .....	252
A. Meireles, I. Machado, M. Simões, L.F. Melo	

## **FOULING DURING FOOD PROCESSING**

<b>Description of the Cleaning Mechanism of a Model Food Soil Using an Optical Detection Method and the FDG Technique</b> .....	256
M. Helbig, H. Föste, W. Augustin, S. Scholl, J.-P. Majschak	
<b>Relationship between <math>\beta</math>-Lactoglobulin Denaturation and Fouling Mass Distribution in a Plate Heat Exchanger</b> .....	264
M. Khaldi, G. Ronse, C. André, P. Blanpain-Avet, L. Bouvier, T. Six, S. Bornaz, T. Croguennec, R. Jeantet and G. Delaplace	
<b>Investigation by Raman Spectroscopy of the Conformational Structure of Whey Proteins Constituting Fouling Deposits during the Processing in a Plate Heat Exchanger – Role of the Beta-Lactoglobulin Molten Globule</b> .....	273
P. Blanpain-Avet, A. Hédoux, L. Paccou, Y. Guinet, T. Six, M. Khaldi and G. Delaplace	
<b>Experiments and Simulations on the Cleaning of a Swellable Soil in Plane Channel Flow</b> .....	281
M. Joppa, H. Köhler, F. Rüdiger, J.-P. Majschak and J. Fröhlich	

## **PARTICULATE FOULING**

<b>Fouling in Heavily Polluted Gas Applications – Experience, Know-How, Sophisticated Approach</b> .....	289
B. Kilkovský, V. Turek, Z. Jegla and P. Stehlík	
<b>Management of Acute Particulate Fouling in a Titanium Dioxide Reactor System</b> .....	292
V.Y. Lister, J.F. Davidson, S.J. Sutcliffe and D.I. Wilson	

<b>Dust Characterisation for Solar Collector Deposition and Cleaning in a Concentrating Solar Thermal Power Plant</b> .....	301
Z. Guan, S. Yu, K. Hooman, H. Gurgenci and J. Barry	
<b><u>EFFECT OF SURFACE PROPERTIES</u></b>	
<b>Performance of Flexible Ceramic Coated Surfaces Subjected to Crude Oil Fouling</b> .....	308
O. Santos, C. Wictor, A. Törnqvist, M. Nilsson	
<b>Minimizing Calcium Carbonate Scaling by Modifying the Surface of Heat Exchangers with Flexible Ceramic Coatings</b> .....	314
O. Santos, J. Anehamre, and M. Nilsson	
<b>Antibacterial Efficiency of Boron Doped DLC Coatings</b> .....	320
X.J. Su, S. Wang and Q. Zhao	
<b>Fouling-Repellent Coating for Shell-and-Tube Heat Exchangers</b> .....	325
C. Bischoff, T. Poulsen, R. Losada, J.O. Mortensen, L. Jackowski and S.T. Taylor	
<b>Biomimetic and Bioinspired Anti-adhesive and Antimicrobial Surfaces</b> .....	328
S. Mulansky, M. Ruhnnow, F. Lenk, P. Goering, Th. Bley and E. Boschke,	
<b>Effect of Structured Surfaces on Fouling and Cleaning Behaviour in Plate Heat Exchangers</b> .....	335
R. Murcek, E. Fuchs, A. Boye, P. Joppa and J.P. Majschak	
<b>Modelling Fouling of Fluted Heat Transfer Surfaces</b> .....	341
P. Besevic, S. M. Clarke and D. I. Wilson	
<b>Value Pricing of Antifouling Surface Coatings in Heat Exchangers</b> .....	350
O.M. Magens, J. Hofmans, M. Pabon and D.I. Wilson	
<b>Aging and Thermal Conditioning of Modified Heat Exchanger Surfaces - Impact on Crystallization Fouling</b> .....	358
K. Siebeneck, J. Lüken, Y. Lu, W. Augustin and S. Scholl	
<b><u>FOULING OF COMPACT AND MICRO HEAT EXCHANGERS</u></b>	
<b>Effect of Fouling and Cleaning on the Thermal Performance of Welded Plate Heat Exchanger in an Offshore Reboiler Application</b> .....	367
A. Bani Kananeh, A. Stotz, and S. Deshmukh	
<b>Fouling in Microstructured Devices: A Review on the Current State of Experimental Work</b> .....	371
M. Schoenitz, L. Grundemann, W. Augustin and S. Scholl	
<b>Experimental Investigation of Fouling of Brazed Plate Heat Exchangers in District Heating Systems</b> .....	379
D. Taler and G. Jaglarz	
<b><u>FOULING MITIGATION</u></b>	
<b>Stream Flow Rate Optimization for Fouling Mitigation in the Presence of Thermohydraulic Channelling</b> .....	384
R.L. da Silva, A.L.H. Costa, and E.M. Queiroz	

<b>Electro-Hydrmechanic Cleaning of Hard Deposits in Tubular Exchangers – Fast, Safe and Efficient SISACO Approach</b> .....	392
M. Khani and M.R. Malayeri	
<b>Removal Kinetics of Pink Guava Puree Fouling Deposit from a Stainless Steel Surface during Alkaline Cycle</b> .....	396
N.I. Khalid, N. Nordin, N.Ab Aziz, A.A. Nuraini, F.S. Taip and A. Ahmedov	
<b>Energy Savings Obtained using the Online Automatic Tube Cleaning System in HVAC Systems in Australia: Real World Case Reviews</b> .....	405
D.P. Ross, P.A. Cirtog and A. Swanson	
<b>Tube Inserts for Heat Exchangers – For Energy Conservation</b> .....	413
N. Aubin	

### **CLEANING OF HEAT EXCHANGERS**

<b>Innovation and Efficiency: Low-Pressure Water Mechanical Cleaning of the Heat Exchanger Cases in heat Exchanger Cleaning</b> .....	418
G.E. Saxon, Jr.	
<b>Mechanical Cleaning in Place of Heat Exchangers using the Compresx® Process</b> .....	422
S. Immel, J.C. Kuschnerow, N. Klein and H.-G. Hammann	
<b>Chemical Cleaning and Decontamination of Refinery and Petrochemical Distillation Equipment</b> .....	429
B. Otzisk and M. Urschey	
<b>Effect of Scheduling Cleaning of Crude Preheat Train Exchangers on the Operating Conditions of Fired Heaters</b> .....	435
E.M. Ishiyama, S.J. Pugh, J. Kennedy and D.I. Wilson	

### **HEAT EXCHANGER FOULING MONITORING**

<b>Plate-Fin Heat Exchanger Fouling Identification using D-Optimal Experimental Design</b> .....	445
K.A. Palmer, W.T. Hale, and G.M. Bollas	
<b>Operational and Chemistry Modeling and Monitoring of Cooling Water Heat Exchangers for the Avoidance of Waterside Fouling</b> .....	454
E.S. Beardwood	
<b>The Use of Comparative Modelling of Heat Exchangers in Cooling Water to Avoid Unscheduled Production Downtime</b> .....	464
E.S. Beardwood	
<b>Fouling Monitoring in Power Plant</b> .....	471
A. Kuboyama, T. Kuwahara, M. Nakamura and S. Iwahashi	
<b>A Fluid Dynamic Gauging Device for Measuring Biofilms on Cylindrical Surfaces</b> .....	474
M. Lemos, S. Wang, A. Ali, M. Simões and D.I. Wilson	
<b>Zero Discharge Fluid Dynamic Gauge (ZFDG) for Studying the Swelling of Soft Solid Fouling Layers</b> .....	483
S. Wang and D.I. Wilson
